

TurtleSkin® Body Armor

Disturbance Control Suits

Variable threat protection in a flexible, comfortable system

Introducing the latest innovation in TurtleSkin's protective materials line-up! Featuring a modular system that provides a high range of operational mobility, these suits are designed to provide the highest levels of blunt force trauma, knife and spike protection.

Available in four different protective material solutions (see below), these systems can be purchased at the individual component level which allows for greater user choice in protection levels, system flexibility and weight. Face any tactical situation with confidence knowing you are protected by TurtleSkin!

Features

- Available in DiamondCoat, polycarbonate and two levels of our patented MFA system
