

Chemical, Biological, Needle and Cut Protection

Look no further for the ultimate combination of officer protection. TurtleSkin ChemBio Gloves combine a chemical and biological barrier membrane with a tough outer shell. The inner butyl liner resists liquids and nerve and blister agents (like GA, VX, HD, and HN), while the rugged outer shell provides cut, puncture and abrasion resistance. This glove is a perfect addition to any officer's police gear.

Features

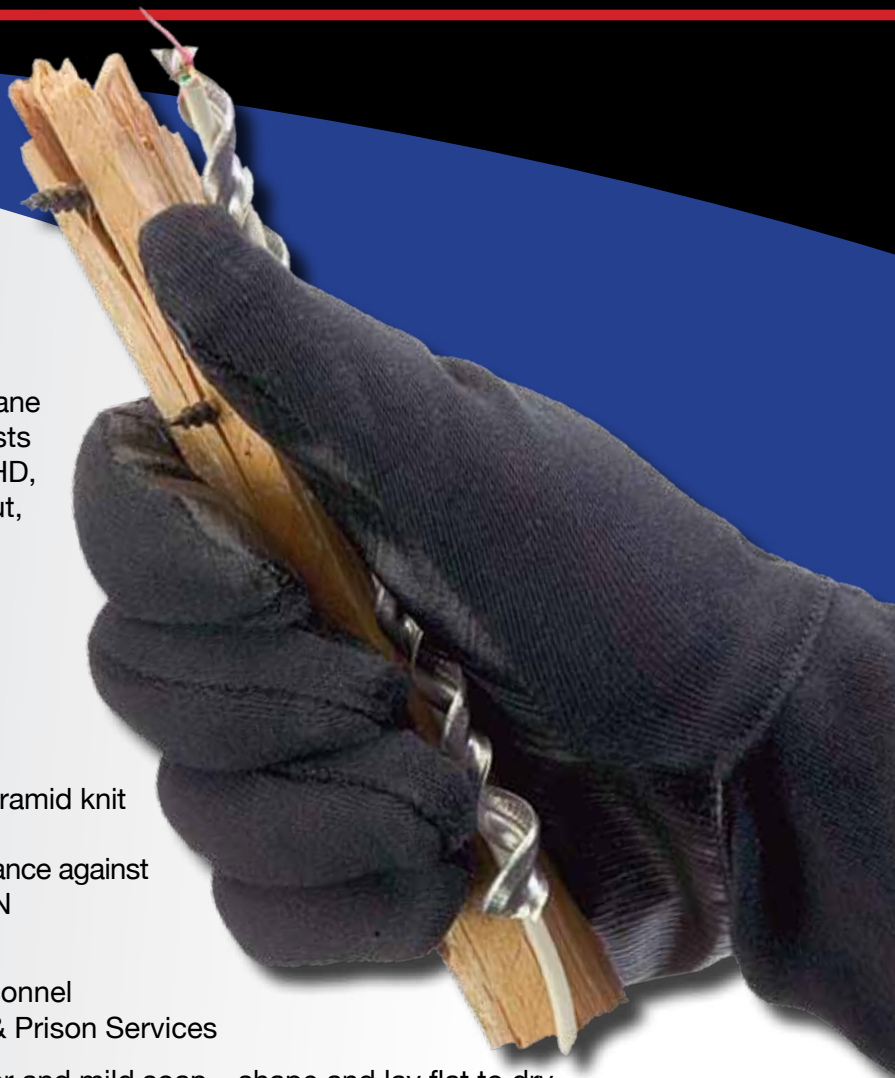

Glove Design:

- Cut, tear, abrasion resistant exterior made of aramid knit
- Puncture, cut and abrasion resistant palm
- Heavy-duty butyl liner provides pathogen resistance against nerve and blister agents like GA, VX, HD & HN

Suitable For:

- Law Enforcement Officers
- Security Personnel
- Border Control Personnel
- Corrections & Prison Services

Care Instructions: Machine wash with cold water and mild soap – shape and lay flat to dry
