

# TurtleSkin SoftPlate™ Tactical Body Armor

Turtleskin SoftPlate technology provides uncompromised protection. Engineered for superior ballistic performance, TurtleSkin SoftPlate tactical armor also provides the highest level of backface signature protection from blunt trauma injury associated with ballistic impact.

## Advanced Carrier Design

TurtleSkin NS2 Neoprene Suspension System suspends the ballistic panel within the carrier to evenly distribute load over the shoulders. The streamlined design improves concealability and comfort. Outer tactical carriers and custom designs are also available.

- Combined Cycle Accelerated Age Tested
- TurtleSkin Silver – Antimicrobial Defense
- 9 mm V<sup>50</sup> – 1995 fps
- 44 MAG BFS AVG – 31 mm
- Threat Level - IIIA
- Areal Density - 1.25 lb/ft<sup>2</sup>
