

WHY TURTLESKIN?

The Tightest Weave Ever in an Aramid Fiber

PATENTED TURTLESKIN WEAVE

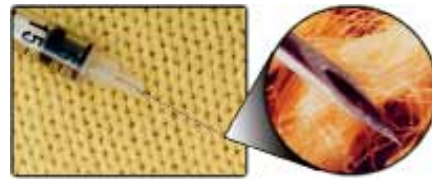

This magnified view shows how TurtleSkin's patented weave interlocks aramid fibers so tightly, they don't shift or leave gaps for fine penetrators to slide past.

STANDARD ARAMID KNIT

This magnified view shows how standard aramid knits have gaps in between fibers that can not stop punctures.

Regular aramid knits have standard cut-resistance, but won't provide the same protection against puncture.

The TurtleSkin® Safety Advantage

LAW ENFORCEMENT AND CORRECTIONS

The best selling line of LE gloves just got better!

INTRODUCING ALPHA & BRAVO

Alpha

Bravo

A new level of comfort and protection in a law enforcement glove— offering needle- and cut-resistant palm and fingertips, outstanding dexterity and short break-in time.

TurtleSkin Search Glove
Highest puncture and cut protection over entire palm and fingertips in a rugged, washable leather shell.

TurtleSkin Duty Glove
Ultra-comfortable with cut and needle resistance in palm and fingertips. Leather palm with nylon knit backing.

TurtleSkin NYDoCS Glove
Protecting the entire hand from cuts with aramid UHMWPE blend knit liner under a soft leather shell.

TurtleSkin Patrol Glove
Protecting the entire hand from cuts with an aramid knit liner under a soft neoprene shell.

TACTICAL SPECIAL OPS

TurtleSkin ChemBio Glove
High puncture, cut and abrasion protection with a chemical resistant heavy-duty butyl liner.

TurtleSkin Special Ops Glove
Puncture protection over the entire palm. Aramid knit back and cuff for added cut and flash protection.

No glove is completely puncture or cut proof

PROTECTION, FLEXIBILITY AND COMFORT

LAW ENFORCEMENT AND CORRECTIONS

TurtleSkin Cell Extraction Vest for Corrections Protection
The TurtleSkin Cell Extraction Vest provides CERT with the highest levels of flexibility and protection combined with Spike and Edged Blade Level 3 protection. While conventional steel plate protection can bruise and pinch, TurtleSkin's flexible Cell Extraction Vest gives officers full range of motion and comfort without sacrificing protection.

TurtleSkin Concealable IIIA Vest
TurtleSkin SoftPlate technology is designed and tested to ensure higher safety margins of perforation and blunt trauma protection in a concealable Level III A package. TurtleSkin SoftPlate armor provides excellent comfort and flexibility while benefiting from the higher performance of specialized laminate materials typically used in hard armor ballistic protection.

TurtleSkin Concealable Corrections Vest
The TurtleSkin Concealable Corrections Vest provides the highest levels of flexibility and protection – combined Spike and Edged Blade Level 3 protection.

New! Concealable Cut & Slash Protection INTRODUCING BLADETECT T

TurtleSkin BladeTect T
Introducing a breathable, comfortable, thin layer of clothing that will protect you from the threat of blade edges and sharp cuts. Designed for the most demanding and high-risk work environments, this shirt has been rigorously tested against real-world threats. The TurtleSkin BladeTect T is lightweight and concealable, and can be worn by itself or under another garment.
